

**TRELICK TOWER,
NORTH KENSINGTON**
VALUE £588K
THE ROYAL BOROUGH OF
KENSINGTON AND CHELSEA

This Grade II 31-storey London landmark required structural reinforcement of three basement levels as a result of changes in factors of safety. 20 flats were decanted to allow for the installation of reinforced steel frameworks and subsequent concreting of shear walls to strengthen this 120 metre tall building.

**GEFFRYE MUSEUM,
SHOREDITCH**
VALUE £326K
THE GEFFRYE MUSEUM
TRUST LIMITED

The refurbishment works, including complete removal and renewal of roof coverings to this Grade I listed museum, set in elegant 18th century almshouses, were undertaken whilst the museum remained fully operational.

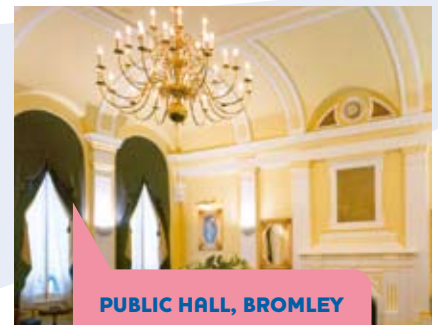

Great care was taken to preserve the historic features of the building and to protect its collections of furniture, textiles, paintings and decorative art.

Lakehouse has undertaken the external restoration of numerous London mansion blocks to bring them back to their former glory.

Works to this Grade II listed classical building comprised stucco repairs, masonry repairs, timber repair and replacement, roofing repairs, railing refurbishment and external decorations.

**EATON SQUARE,
BELGRAVIA**
VALUE £500K
GROSVENOR ESTATES

PUBLIC HALL, BROMLEY
VALUE £137K
LONDON BOROUGH
OF TOWER HAMLETS

Works to the first floor of this Grade II listed building included provision of a movable acoustic wall to the function room and alteration of kitchens and toilet facilities to create a marriage room and waiting area.

Braille controls and aural floor indicators were installed to the lift, together with rewireing and fire alarm system, redecoration works and new floor coverings.
