

PROJECT DESIGN AND BUILD OF WILLOW (CHALKHILL)
CHILDREN'S CENTRE
CLIENT LONDON BOROUGH OF BRENT
VALUE £1.25M
CONSULTANT SANDERSON WEATHERALL

Lakehouse was appointed to design and construct the timber-framed Willow Children's Centre, in Wembley, which incorporated gravel cladding, Sto render and aluminium windows.

The centre caters for early years education and childcare in Brent and Willow Children's centre is one of five centres which have become focal points in the community for children under 5 and their families.

Despite the challenge of extensive delays during the groundworks stage, after encountering unforeseen utility and drainage provision for adjacent buildings, the bright, colourful, state-of-the-art facility was completed on time.
