

sector summary

STRATFORD STATION

APPROACH TO RAIL

As one of the world's oldest and largest underground systems the London Underground requires considerable upgrade, maintenance and refurbishment. Our expertise encompasses major structural repairs, renewal of dilapidated external features, floor to ceiling renovation including new fixtures and fittings, and mechanical and electrical works.

Our 5 year framework for Tube Lines, who manage part of the London Underground network, has included maintenance works and some sizeable projects at stations including Stratford and Wembley Park.

**AT LAKEHOUSE WE PROVIDE
A FIRST-CLASS CONSTRUCTION SERVICE
FOR THE RAIL INFRASTRUCTURE**

RAIL TEAM

Lakehouse provides a first-class construction service for the rail infrastructure, where quality and reliability are critical. With a focus on customer service, teamwork, and most importantly safety, we fully utilise the skills and talents of our people, encouraging them to reach their full potential through ongoing support, training and development.

Our strong and experienced Rail team accommodates this growing sector of our business.

SUSTAINABILITY

As our business grows, so does our commitment to create sustainable communities. To Lakehouse this means championing and developing local businesses, employing local people and supporting local supply chains.

We work with our clients and suppliers to provide training and employment opportunities. Our close involvement with professional partners, industry bodies and community groups enables us to assist and promote their own social and environmental initiatives through sponsorship and support.
