

**PROJECT**

DESIGN AND BUILD OF GALLIARD SURE START CHILDREN'S CENTRE

**CLIENT**

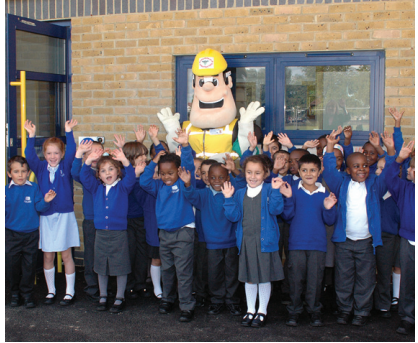

LONDON BOROUGH OF ENFIELD

**VALUE**

£1.65M

**CONSULTANT**

LONDON BOROUGH OF ENFIELD

Two projects have been undertaken at Galliard - the first was the construction of an extension to the main school, creating a new main entrance, reception area, offices, a treatment room for local healthcare workers and a large room with an outdoor area for various community groups.

The largest project was the design and build of Galliard Sure Start Children's Centre. This project was originally undertaken by another contractor, whose work was condemned, having

completed the ground works and erected the steel frame. Lakehouse was subsequently approached to demolish what had already been built and start afresh. As a result this was a sensitive and challenging project and Lakehouse pulled out all the stops to build trust with the school staff and win them over. We were responsible for organising and funding a Fun Day which involved a Health and Safety talk from Ivor Goodsite, tours of the new centre for all pupils at the school, a recycling workshop and face painting for the younger children.
