

PROJECT CONSTRUCTION OF BRUNSWICK SURE START CHILDREN'S CENTRE
CLIENT SOUTHWARK PRIMARY CARE TRUST
VALUE £876K
CONSULTANT HENRY RILEY LLP

Lakehouse was selected to build the Brunswick Sure Start facility, in Camberwell; whose aims are to improve the health and well being of families and children before and from birth.

Works were completed on time, despite the tight confines of the site, with an occupied adjacent nursery and within a densely populated housing estate.

The facility was constructed over two floors and existing facilities were fully refurbished. Regular consultation with the Nursery's Head teacher and the residents was vital for the smooth running of the project which included the installation of new lifts, play areas, gardens and courtyard.

Sure Start Brunswick covers an area with a high proportion of ethnic minority families, lone parents and unemployed parents and Lakehouse was delighted to create the new, friendly and welcoming facility.
