APPROACH TO RESTORATION

Lakehouse provides a complete restoration service for prestigious, historic and listed buildings.

Working to the exacting standards of planners, clients and conservation specialists, our craftsmen pay meticulous attention to detail, enabling us to deliver high quality finishes whilst retaining the structure's character and importance.

For new buildings and facilities we can offer advice on how to combine the best of the old and the new, ensuring sensitive solutions that are pleasing to the eye.

US TO DELIVER A HIGH QUALITY FINISH**

RESTORATION TEAM

The restoration and repair of listed buildings requires a high standard of craftsmanship and professional skill, often involving the use of traditional skills and crafts such as masonry, stained glass, ironwork, leaded lights, period finishes and traditional roofing.

At Lakehouse we have developed a robust supply chain of approved specialist sub-contractors to complement our own craftsmen. Our commitment to training and development, from apprenticeships to the up-skilling of existing trades, has proven invaluable in this field.

SUSTAINABILITY

As our business grows, so does our commitment to create sustainable communities. To Lakehouse this means championing and developing local businesses, employing local people and supporting local supply chains.

We work with our clients and suppliers to provide training and employment opportunities. Our close involvement with professional partners, industry bodies and community groups enables us to assist and promote their own social and environmental initiatives through sponsorship and support.
