

**PROJECT** EXTENSION & RECONFIGURATION OF STIFFORD CLAYS JUNIOR SCHOOL  
**CLIENT** THURROCK COUNCIL  
**VALUE** £508K  
**CONSULTANT** INGLETON WOOD

Lakehouse was selected to undertake the extension and reconfiguration of Stifford Clays Junior School, in Essex, to provide a new entrance, reception, offices and classrooms that would fit in with the school's requirement for a warm, caring environment where individuals feel secure and trusted.

Lakehouse managed to complete the project on time and to budget, overcoming the challenge of working adjacent to the fully occupied working school, without disrupting normal working arrangements. This was even more appropriate for a school that recognises self esteem and thought for others as values of paramount importance.
