

PROJECT

REFURBISHMENT OF EMERSON PARK SPORTS HALL & CHANGING ROOMS

CLIENT

EMERSON PARK SPORTS COLLEGE

VALUE

£190K

CONSULTANT

DUDLEY SMITH PARTNERSHIP

The refurbishment and upgrade of this old run down sports hall and changing room block, was undertaken to bring it up to the standards required by Badminton England and Sport England. Emerson Park is a specialist Sports College and the project was financed mainly by these bodies with additional funds raised by teachers, children and parents. The bulk of the work included:

- New sprung sports floor and linemarking
- Major improvements to the insulation of the building via internal recladding

- New showers and cubicles
- Rewiring and replacement lighting to changing area
- New doors throughout, including secure sports cupboard metal doors

The college has been transformed and Lakehouse was delighted to attend the opening ceremony along with local VIPs, to watch the children’s presentations about what the new facilities meant to them, see before and after photos of the sports hall and photos of the children raising money to help fund the work.
