REFURBISHMENT OF BACES CARLTON CENTRE
LONDON BOROUGH OF BRENT
£1.15M
PIERCE HILL CONSTRUCTION CONSULTANTS

Brent Adult and Community Education Service (BACES) is Brent Council's direct provider of education and training. It delivers a wide range of community-based part-time, day, evening and weekend classes to adults throughout the borough.

The refurbishment and modernisation of this Victorian building included substantial DDA works to make access for people with disabilities easier. As well as the new lift, which is housed in a conical glazed enclosure, the work also included an additional three classrooms, a modern reception and a café.

The new-look Carlton Centre was officially opened by Brent Mayor, Councillor Bertha Joseph, and is set to become a local landmark due to its spectacular outside lift.
