

EDUCATION

sector summary

TIMBERCROFT PRIMARY SCHOOL, PLUMSTEAD

APPROACH TO EDUCATION

From minor works to new classroom blocks and complete refurbishments, Lakehouse provides facilities for the whole community.

With over 20 years' experience in education, we put safety first every time. Working within and around occupied sites presents its own challenges. At Lakehouse we understand the complexities involved and the importance of good communication with stakeholders.

Our commitment to innovation and quality ensures that every project, large or small, is closely managed to maximise the value of the client's budget, improve timescales and exceed expectations.

FROM MINOR WORKS TO CLASSROOM BLOCKS, LAKEHOUSE CREATES FACILITIES FOR THE WHOLE COMMUNITY

AWARD WINNING EDUCATION TEAM

In 2007 two of our new build projects received RIBA and BCI awards and our Education Partnership Scheme with Essex Wildlife Trust won Lakehouse a Havering Business Award.

Our management teams are well versed in the challenges faced on occupied sites. Excellent communication and programming skills and a real understanding of the environment allow them to work alongside staff and students, enhancing rather than disrupting their education.

SUSTAINABILITY

As our business grows, so does our commitment to create sustainable communities. To Lakehouse this means championing and developing local businesses, employing local people and supporting local supply chains.

We work with our clients and suppliers to provide training and employment opportunities. Our close involvement with professional partners, industry bodies and community groups enables us to assist and promote their own social and environmental initiatives through sponsorship and support.
