CONSULTANT NYC Restaurants Limited

Hampstead is known for its intellectual, artistic, and literary associations. It is also home to some of the most expensive housing in the London area.

When a high street chain made the decision to develop a new restaurant in Hampstead High Street it was Lakehouse that was selected to undertake the fast-track extension, refurbishment and fit-out of a terraced, Grade II listed property.

Contemporary lighting and modern lines were combined with high-class bespoke joinery to create Café Des Arts, an airy welcoming restaurant and bar.
